Igniting your startups to soar high!

Application Flow

This document contains the brief about the application flow and basic architecture.

This documentation is for internal purposes only.

The entire application flow will differ based on our two distinct end users :-
- Entrepreneur
- Investor

End Users

The entire application flow will differ based on our two distinct end users :-
- Entrepreneur
- Investor

Entrepreneur   Investor

Phase 1

Splash Screen

The splash screen with animated logo and the title of the app will be displayed everytime the app is opened.

Phase 2

App Onboarding

The app on boarding is the first phase where 3 screens explaining the benefits of the app are displayed in a carousel. The screens will contain details like :-
- About Soar Throw
- Benefits offered by soar throw
- Pricing information and services offered

Registration/ Login

The user is provided with options such as email/password registration, google and facebook signin.
The new users are asked to view and accept the user agreement and privacy policies.
A provision for forget password, 2 step verification are also provided.

User Onboarding

The user onboarding carousel appears only during the first time when the user logs in/ signs up. The user onboarding will explain the various features of the apps and help the user to understand how to use the app.

During Phase 3 (Registration) , the user is asked to provide basic information such as name, links to social media, email, phone number etc.,

The user is also asked to select his category from the following :-
- Entrepreneur
- Investor

The application flow varies based upon the selected category.

T

Entrepreneur

Investor
